

# How to buy Scamtoken using Binance, MetaMask and PanCake Swap.

Step-by-Step Guide 🚀 🚀 🚀

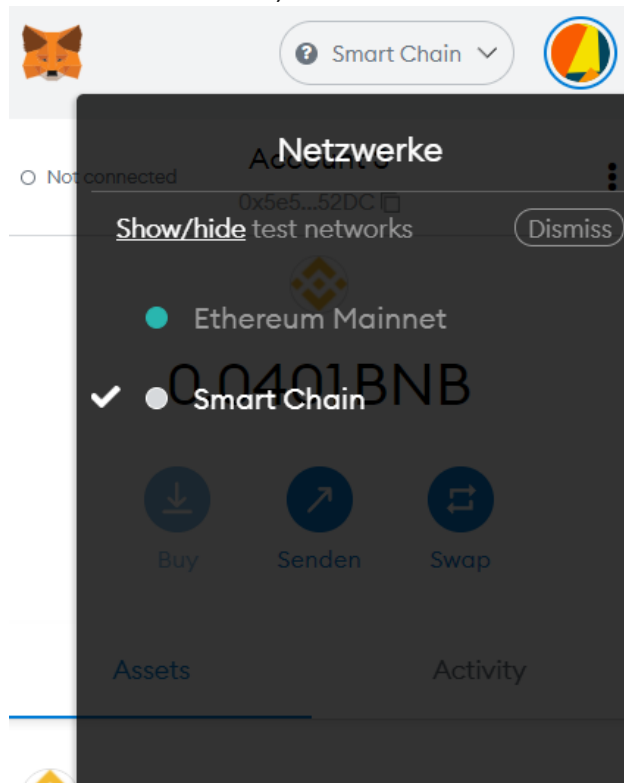

CONTRACT Address: 0xc95cb30defb75a15cdb1cc47ef80d9a816d7509f

1. Create an Account, Verify your Identity (KYC) and Buy BNB coin from [Binance](#).
2. Install MetaMask browser extension (Chrome, Brave, Firefox, Edge supported) [Link](#). Make sure you safely store the Password and Seed Pass Phrase.
3. Connect MetaMask Wallet to Binance Smart Chain. Check the [Link](#) for detailed instructions.
4. Safely store the Private Key for the default Ethereum Mainnet Wallet Account and the BSC Mainnet Wallet Account. You will need this incase you will have to reset the MetaMask Wallet in the future. Click on the 3 dots Icon and select Account Details. Click on **EXPORT PRIVATE KEY** button. Type your MetaMask password to view the Private Key. (**Optional but very important step**)

**Warning: Never disclose this key to anyone in any circumstance. Anyone with your private keys can steal any assets held in your account.**

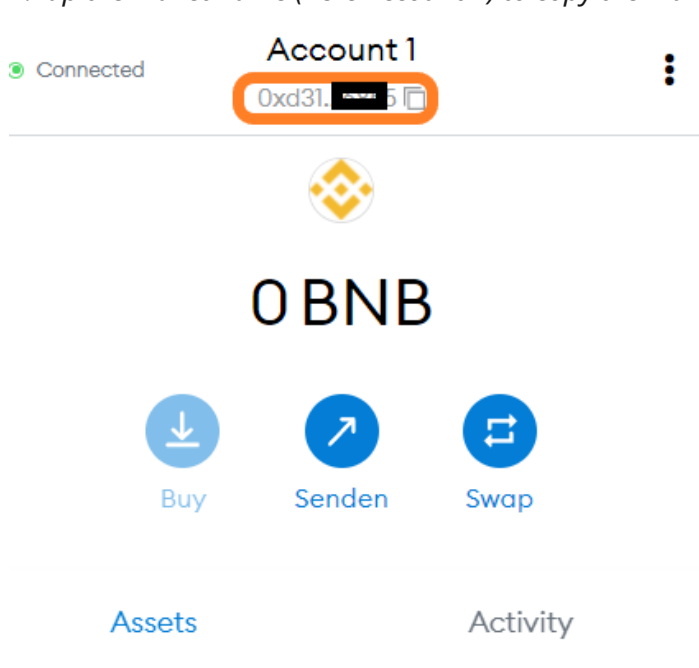

5. Go to Binance > Wallet > Fiat & Spot > Select BNB Coin and click the Withdraw button for BNB coin.

6. In MetaMask Wallet, make sure BSC Smart Chain is the selected network.

Tap next to the Account Icon and make sure BSC Wallet Account is selected (In Case you have created a separate account for BSC Mainnet).

7. Tap the Wallet name (here Account 1) to copy the Wallet Address.

8. Paste this address in the Recipient's BNB Address.

Recipient's BNB Address

9. Select Binance Smart Chain (BSC) as Transfer Network. Don't select the Binance Chain (BNB).

Transfer network ⓘ

Binance Chain (BNB)  
BEP2

Fee: 0.001 BNB  
≈ ₹19.98

Binance Smart Chain (BSC)  
BEP20 (BSC)

Fee: 0.0008 BNB  
≈ ₹15.98

Reminder: For the safety of your funds, please confirm again that the network you wish to use is BSC.

10. Tap the Max button to select all the BNB. Minimum Withdrawal Amount is 0.01 BNB.

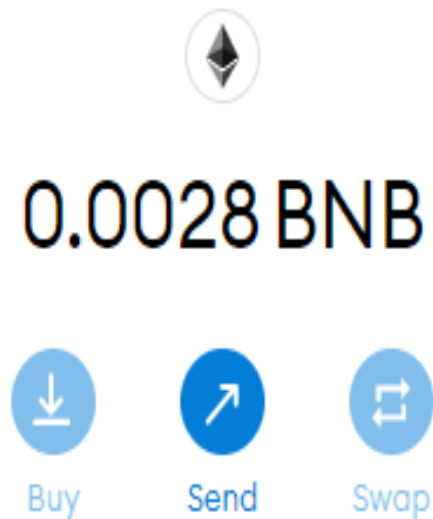

Amount

Minimum Withdrawal 0.01 BNB

[Max](#) BNB

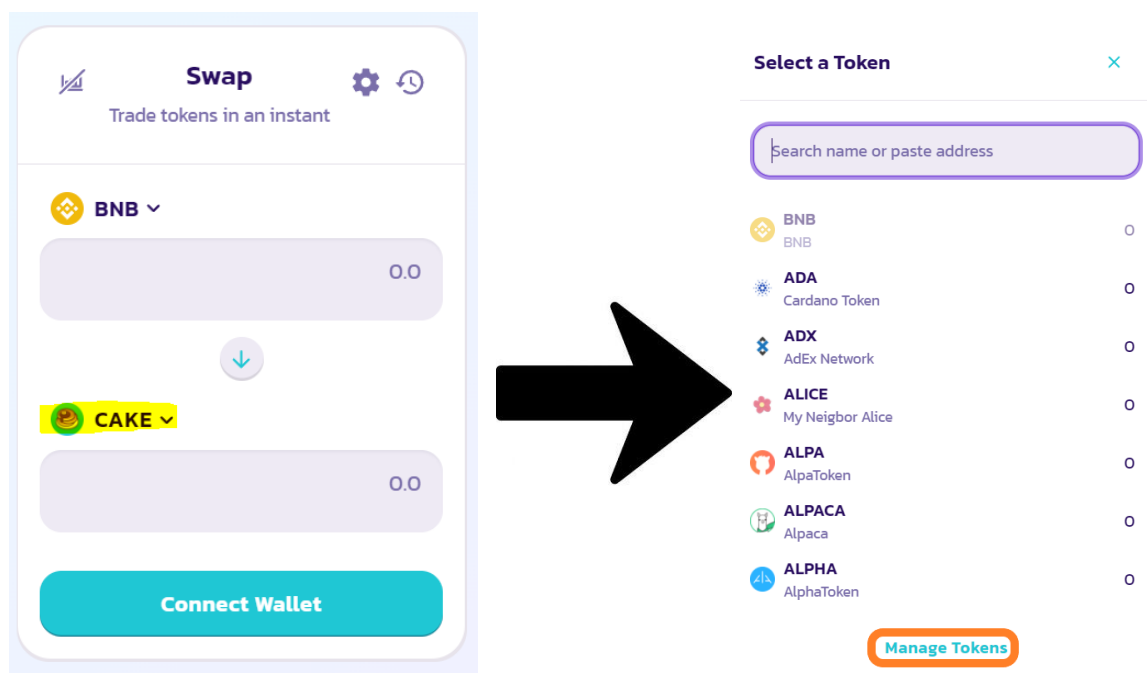

Available amount : 0.00100000 BNB

11. Tap Submit button and wait for 5-10 minutes for BNB to reach your MetaMask Wallet. Updated BNB Amount will be reflected in the screen (see image below).

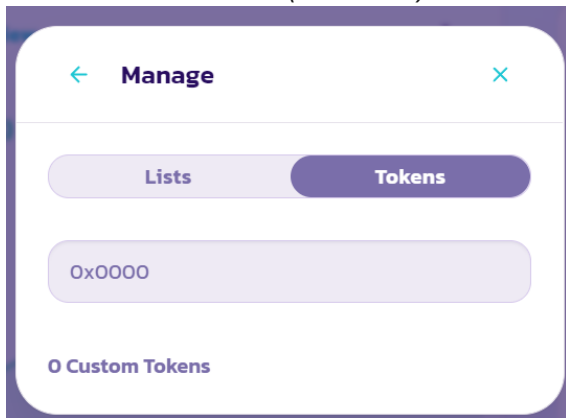

12. Open the Pancake Swap Exchange ([LINK](#)).

13. Click on the CAKE currency and next on manage tokens:

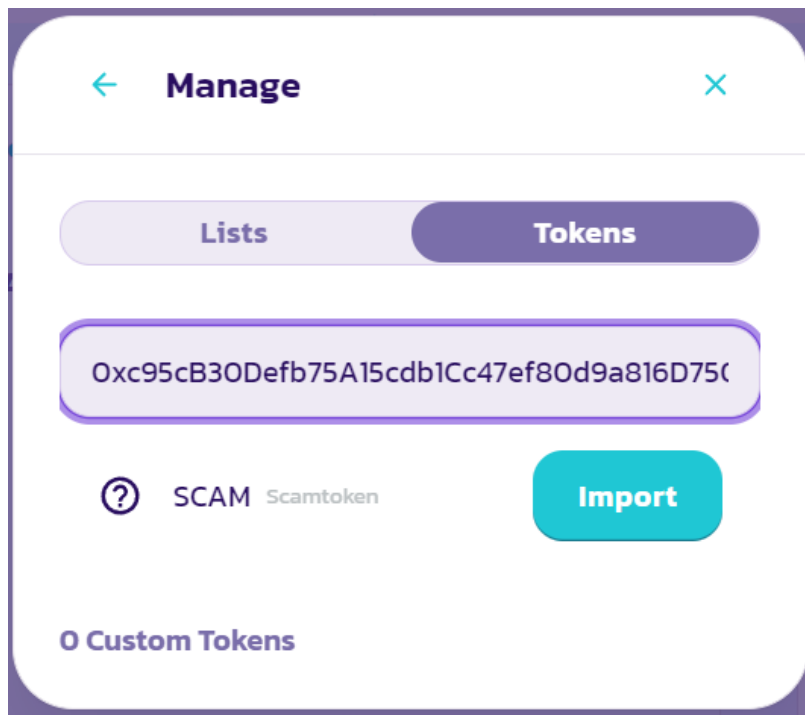

14. Click on the Tokens (see below).

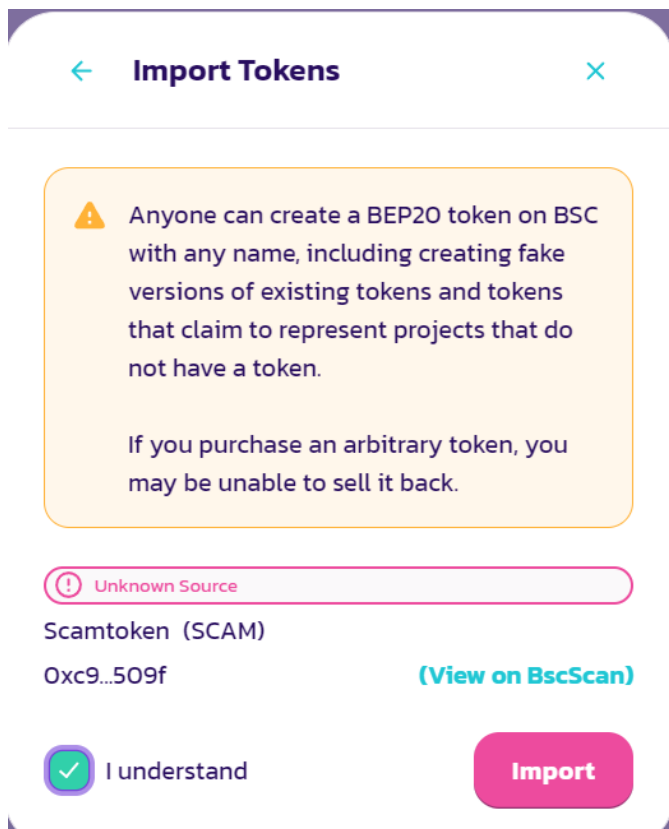

Paste **0xc95cb30defb75a15cdb1cc47ef80d9a816d7509f** this address in the Search Field

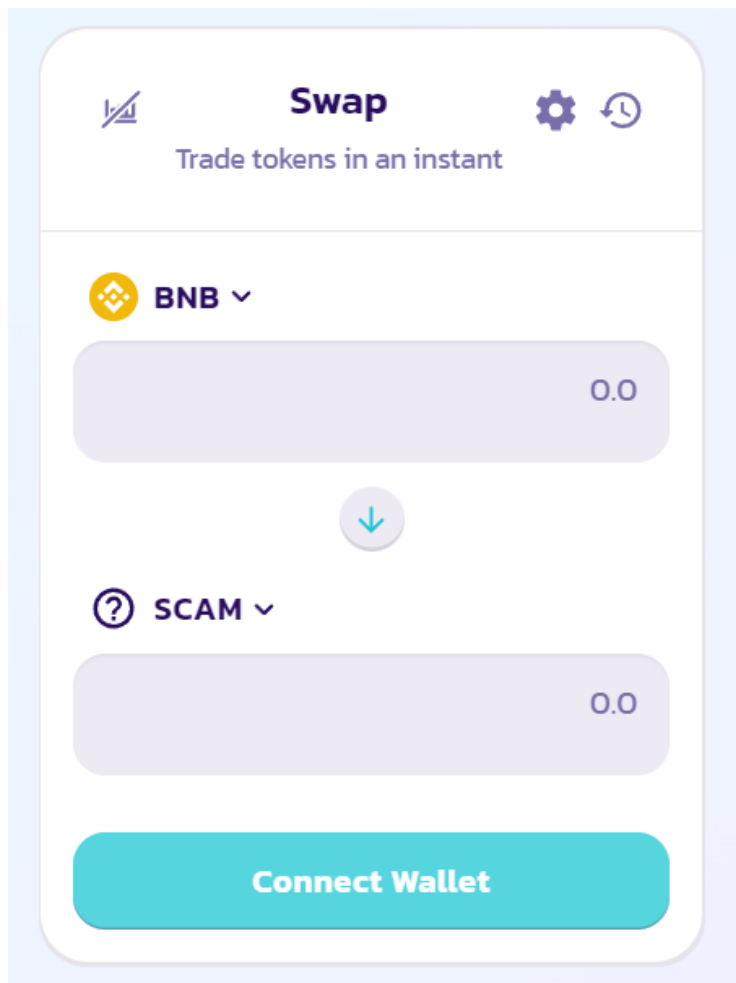

**0 Custom Tokens**

Pancake Swap will search and show Scamtoken as the result and click the **import** button to add the token.

If additional this pop-up window shows up-> *click I understand and the import button:*

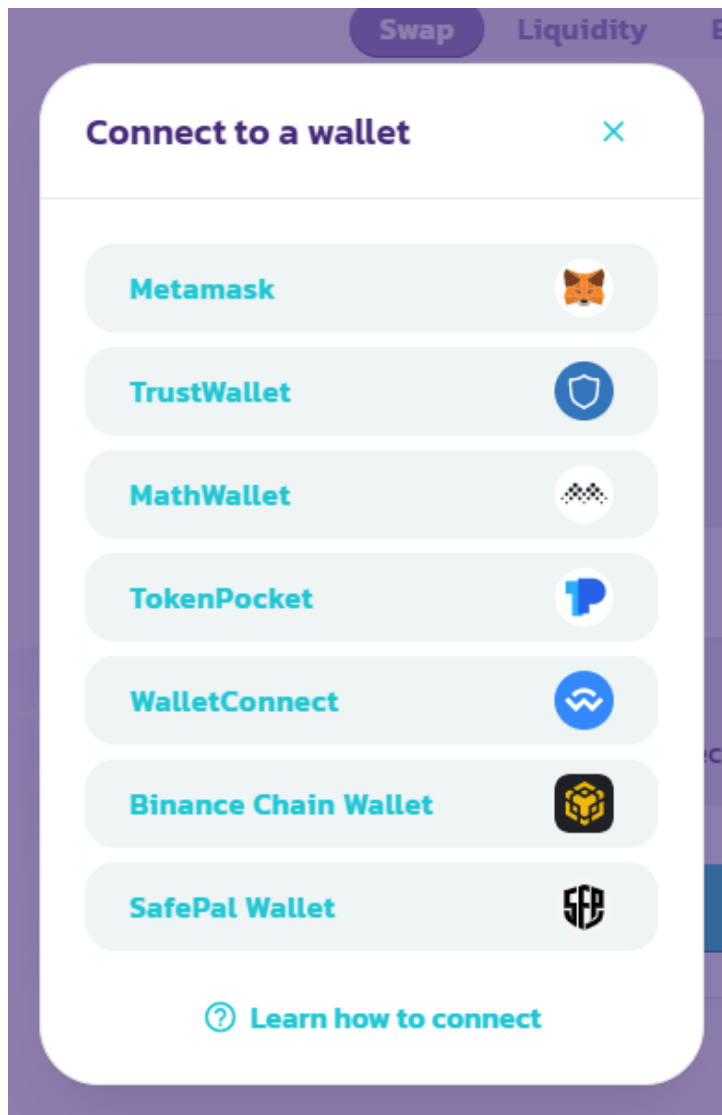

15. Tap the Connect Wallet button in the top right corner to connect the MetaMask Wallet with Pancake Swap Exchange.

A popup window will be displayed asking you to connect to a Wallet. Click on Metamask to connect to the MetaMask Wallet.

There will be a prompt from MetaMask Browser Extension to accept the connection request. Accept the request and the Metamask Wallet Address will be displayed in the Top Right corner. Also the available BNB Coins in your Wallet will also be displayed in the screen (e.g. Balance: 0.00276697).

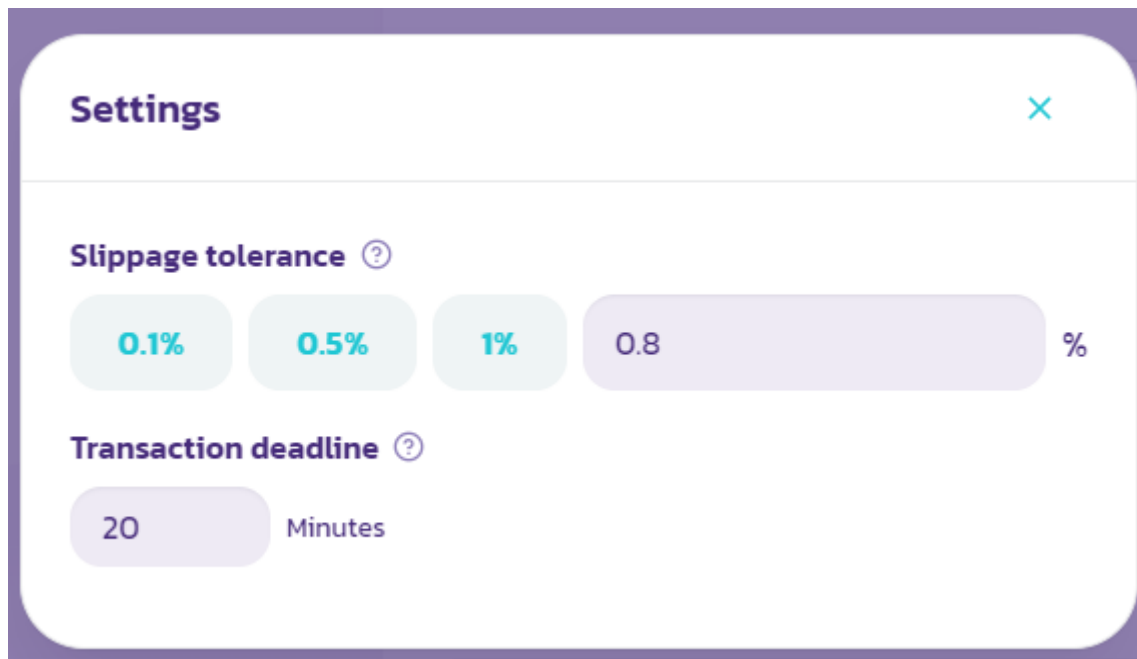

After the MetaMask Wallet is connected to Pancake Swap Exchange, the Connect button will be changed to your Wallet Address (see below).

16. Click the MAX button to add maximum BNB and the maximum number of Scamtokens that can be swapped for BNB will be displayed here.

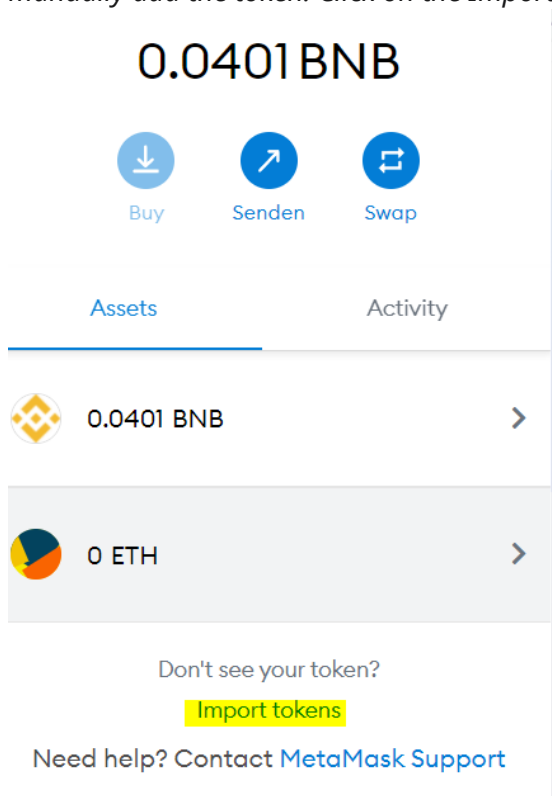

17. Click the Settings button (see below) and set the Slippage Tolerance as 10%.

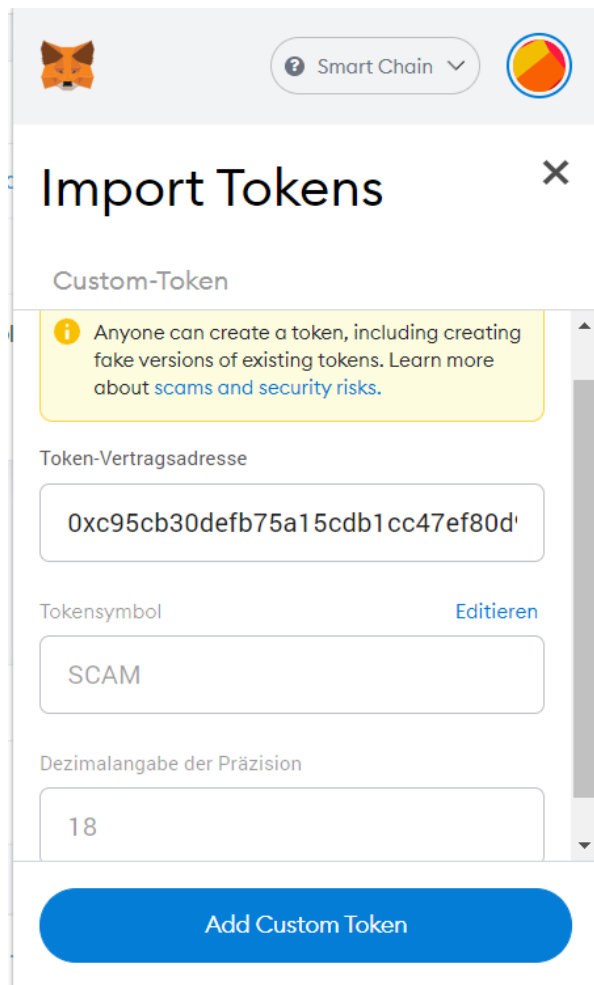

18. A window will be displayed and click confirmation button to complete the swap. Transaction will be successful in a few minutes/seconds and the transaction fees are also low.

19. The Scam token will not be displayed in your MetaMask account by default. You will have to manually add the token. Click on the Import Tokens button

20. Select Custom Token tab.

Import Tokens

Custom-Token

Anyone can create a token, including creating fake versions of existing tokens. Learn more about [scams and security risks](#).

Add Custom Token

21. Add **0xc95cb30defb75a15cdb1cc47ef80d9a816d7509f** as the Token address. MetaMask will automatically add the Token Symbol and decimals of precision. Click **Add Custom Token button -> import token** and MetaMask will automatically read and add the Scamtoken to your wallet. Now you can see the total balance available.

Now sit back and HODL while the number of Scamtokens rise automatically (Fingers Crossed).
